Most Proactive School: Outdoor Field Education **BRONZE** Um Kalthoom School, Al Ain

The school has a total strength of 546 students but the numbers of students taken out for field trips was 630. Surely this shows that some students have gone more than once for a field trip.

Their trips were conducted to various places like the Al Ain Zoo, Al Fooah Dates Factory, Science Camps etc. and it was also planned in such a way that it was connected to the school curriculum and done as a part of the learning process.

Part of the reason for the school's success in this component is owed to the strong belief and conviction of the School's Environment Coordinator who felt that the Field Trip was one of the best ways to teach students and help them learn.
